Presentation

Full-stack software engineer with 4+ years of experience and a track record of owning architecture end-to-end, shipping AI-powered automation, and mentoring newer developers.

Education

Systems Analysis and Development — UTFPR, Jul 2022 – Dec 2025

Experience

Aeon Tech (formerly Union Audio)

Software Engineer (Pleno)

Ponta Grossa, PR (Remote)

Mar 2026 – Present

- Own product architecture, requirements, and task prioritization after being promoted from Jr to Pleno.
- Built the product's testing culture from zero to 80%+ coverage, improving CI pipelines.
- Mentor an intern through structured PDI and 1:1s.
- Ship AI-powered automation with n8n across the full stack (Next.js, NestJS, FastAPI, PostgreSQL).

Aeon Tech (formerly Union Audio)

Jr Developer

Ponta Grossa, PR (Remote)

Jan 2024 – Mar 2026

- Joined mid MVP-rebuild after an earlier attempt failed to reach production.
- Architected the WhatsApp/Evolution API automation layer end-to-end, including OTP verification.
- Owned front-end delivery (Next.js, TypeScript, Tailwind, GSAP) in a 4-5 person team.
- Promoted to Pleno after helping ship the MVP into production.

Kaizen

Developer / Technical Partner

Brazil (Hybrid)

May 2026 – Present

- Co-building a condo-automation startup with an international team (Madrid, Mexico City, Brazil).
- Own the entire client-facing layer: WhatsApp flows, backoffice, and product UX.

Tata Consultancy Services

Analyst

Londrina, PR (Remote)

Feb 2023 – Nov 2023

- Provided production support for Carrefour's mission-critical overnight systems.
- Acted as technical liaison in War Room incident response between engineering and crisis managers.

Tata Consultancy Services

Intern

Londrina, PR

Jun 2022 – Feb 2023

- Expanded from front-end to back-end (Java, Spring Boot, Node.js) on the team's capstone project.
- Served as developer and Scrum Master, replanning strategy after key members dropped out.
